

Did You Know?

Things You Should Know About The Beginning of Genesis

Torah/Kabbalah Secrets Revealed

By HaRav Ariel Bar Tzadok

Did you know?

- **Did you know** that there is a discrepancy between Genesis 1:1 and Genesis 1:2? In Genesis 1:1, it states that G-d created the Heavens and the Earth. Then, in verse 2 it states that the Earth was Tohu (void) and Bohu (chaotic); yet in Isaiah (45:18) it states that G-d did not create the Earth in Tohu. If the Earth was not created in Tohu in Genesis 1:1 as Isaiah states, how then did it get that way in Genesis 1:2?
- **Did you know** that our Sages teach that prior to creating our world G-d was busy creating and destroying other worlds? Not every world that was created was destroyed. The Kabbalah teaches that there are an infinite number of worlds (universes) in all different dimensional planes. The Kabbalah also teaches that these other universes are as inhabited as is ours and that there is active communication and movement between the inhabitants of those worlds and ours.
- **Did you know** that the Torah actually does teach evolution? The creation story is a progressive one, taking place over a period of six metaphorical (and not literal) days. The order of progression clearly follows what science today recognizes as the proper order of evolution. If G-d had wanted to He could have snapped His magical fingers and have all creation suddenly appear as is, fully functional. Why then did He take “six days”? Did the Supreme Being, Source of All Power, actually need to rest, as we understand it by human standards? We dismiss such an idea for the anthropomorphic foolishness that it is. Yet, why six metaphorical days, if not to express a progression from one primitive state to one more advanced.
- **Did you know** that according to many Sages, Adam was not the first human being on Earth? Did you know that a number of Rabbis have spoken about the “pre-Adamite” human beings? Did you know that some of them have actually spoken of highly advanced pre-Adamic civilizations? One Rabbi I have seen actually mentions Atlantis by name.

- **Did you know** that Adam was not originally indigenous to this Earth? It can be properly understood from Kabbalistic tradition that Adam was actually an extraterrestrial being from another dimensional plane that came down to an already inhabited Earth. Originally Adam came from a parallel universe and the Fall in Eden is the story of his descent into this world and into a body of flesh and blood.
- **Did you know** that according to a commentary on the Zohar, Adam actually had parents back in his dimension of origin. The creation story therefore is the story of Adam's "formation" (Yetzirah) in the parallel universe.
- **Did you know** that the Garden of Eden does not and never did exist on the face of this Earth? Did you know that according to Kabbalistic sources, the Garden is actually located at the center of a Hollow Earth? And that it was here in Hollow Earth that Adam and Eve first materialized and that Kayin and Abel were born?
- **Did you know** that this Garden of Eden is the place to where Mashiah Ben David goes to gain his messianic authority and power? Did you know that Inner Earth is inhabited by all types of other human beings, other humanoid species and other types of life considered mythological or presently unknown? Did you know that the Graves of the Patriarchs in Makhpelah allegedly contains a doorway to this inner Earth? Did you know that unicorns, phoenixes and dragons live down there as do minotaurs and centaurs.
- **Did you know** that the Serpent in the Garden of Eden was actually a reptilian humanoid (dragon), which possessed what today we would call occult powers? Did you know that he was originally an angel and that there is an entire race of reptilian humanoid entities (Teli/Watchers) who serve as G-d's messengers (angels)? Did you know that some of them came to Earth in an act of rebellion against "Heaven" thus provoking a civil war that continues to this day? Did you know that all humanity from beginning till the "bitter end" are all part of this great "star" war?
- **Did you know** that humanity prior to Noah's flood was genetically very different than human beings are today? Did you know that our Sages have inferred that human beings originally possessed some form of reptilian DNA? Our Sages taught that prior to Noah, human beings were all born with webbed fingers. Noah was the first to be born with detached digits.
- **Did you know** that the "son of G-d" spoken of in Genesis 6 were actually humanoid entities who came from another planet and brought with them the sciences of technology which they taught to humanity? Did you know that because they intervened in humanity that they ruined the original purpose of humanity and the entire gene pool had to be erased and thus the flood?
- **Did you know** that all humanity prior to the flood was vegetarian? And in spite of modern claims how vegetarianism makes one more spiritual and closer to G-d, the only time in human history when humanity was entirely vegetarian, society was so awful that Heaven had to intervene and destroy them all. So, much for the claims of superiority from the vegetarians.

Those of you reading this who are Torah scholars are not surprised by any of the revelations that I have mentioned here. The sources for all I have written here can be found in the numerous midrashic, Zoharic and Kabbalistic literature available in most Torah book stores online or around the world. Everything that I have mentioned here comes from classical and ancient authoritative (Orthodox) Torah sources. Torah scholars will know this. As for all others, I suggest you do your own research. Learn for yourselves and see for yourselves what Torah really teaches and what Torah really means!

Torah is a lot more than just a bunch of antiquated outdated fairy-tale stories. Genesis contains within its beginning chapters many secrets and profound teachings that are vitally relevant to what is happening on Earth today. There is much clandestine activity going on around the world for a preconceived purpose. This is known to Heaven and concealed from the masses of humanity. But this is nothing new, like Solomon said a long time ago; there is nothing new under the sun. What once was is again. What happened before will happen again.

We are a slumbering people, distracted by the myriad of things that keep our minds occupied and away from noticing what is really going on around us.

Centuries ago a flood came and wiped out what was wrong. We are at a critical crossroads in human history when again we have allowed ourselves to become so devastatingly detached from the natural way. Heaven is set again to intervene again, as it did in the past the set the record straight, this time permanently. This realignment is what we refer to as the pre-messianic tribulations and this time period is quickly falling upon us like a meteor from the sky.

No one can avoid the future. But we can learn from the past. We do not have to face devastation and destruction as did the generation of the flood. We can each learn to be like Noah and G-d will provide for us our own individual "arks." But first, we must become righteous as Noah was righteous. We must learn to recognize the truth about the world in which we live and recognize the deception and lies that it promotes to pull a veil of ignorance over our eyes.

Studying the first chapters of Genesis and learning well from where we truly come from and what happened to us as a race in the distant past will enable us to be aware of the true nature of the present and help us prepare for a very rocky future coming soon to us all.

Awaken sleepers, cast aside the silly "pep-talk" hype you hear coming from the other Rabbis who tell you all will be well, when all will not be well! Like their teachers before them they are blind to what is coming; they cannot see it and will not see it until it is too late for them; as it was for their teachers in Holocaust Europe. We do not have to walk in their footsteps, but first we must stop following their lead.

Start getting real. This may very well mean having to get uncomfortable. This may very well mean you having to make some very fundamental changes in your lives and lifestyles. But I would rather see you do these things now with ease, than to have them pushed down your throats with pain and sufferings because you choose to hang on to long to that that which has become outdated.

You must start your studies of Torah anew and learn Torah the right and proper way. No more "Torah-Lite" pep-talks. You must get real! You must delve into the depths of Torah and extract from it the real meaning in life.

Be selfish if you wish - do this for your own benefit, for benefit from it you will indeed!
Experiencing the truth of what our Sages have taught over the centuries will open your eyes and free

you from your shackles that keep your minds bound to the story-book fairy-tales taught by many as being true Torah. But this is not Kosher! And it must no longer be tolerated!

Do your homework's! Study the things I have mentioned above. Find the source materials and you will see the truths I have written above and so much more.

- **Did you know** that in the previous civilization here on Earth before Adam that human beings were considered the pets of a higher species, just what this higher species was is not specified. Make the Yalkhut Reuveni one of your source books.

Enough for now...

Go online to KosherTorah.com and see my selections of CDs, MP3s and E-books that deal with these subjects.

Learn and see for yourselves what is KosherTorah as compared to "Torah-Lite."
