

The Time is Coming

In the early hours of the morning, late at night, as I flew over the land at 36,000 feet, clear of all the noise below, I dozed off in the thoughts of my mind and as usual, images began to appear. What they are is not important; what they mean is of importance to us all. This then sums up what came to me as I flew across the country late last night...

So much work, so little time. Who is so blind that they cannot see that the way things are cannot go on much longer? Who really thinks that injustice can go on forever?

Who really thinks that the Ketz will never come? Who really thinks that Mashiah will be delayed forever? Well, think again! Things are not going to happen as soon as we might think, but happen they will, happening they are!

Heaven does not operate on the same time schedule as does humanity. We live in parallel similar worlds, but in very different, dissimilar dimensions. The natural laws governing each world are different. Time and space exist differently in each and function with almost mirror-reflection opposites to one another.

In Heaven, time moves at a different pace and in a different direction than it does here on Earth. Although our two worlds are integrally connected, they are naturally opposites. On Earth time moves forward, whereas in Heaven, (from our point of view), time moves backwards.

At the point where forward time and backward time meet, this will be the point where the two dimensions merge. At this point Mashiah will exit the Garden of Eden and slide into this dimension and on to our Earth. Mind you, this is not the first time this has happened.

Mashiah will not come alone, but will be accompanied by many holy warriors. They will be the denizens of that other dimension and their role is to support Mashiah in his take-over of Earth and his removal of all human civilization built up until then.

His coming will be most unwelcome by almost all. His imposition of order will not be performed with love and patience but rather with ruthless vigor. The holy warriors are far more advanced in spirit, mind, heart and deed, above anything humanity can possibly now imagine. Even the latest "black ops" military weapons will simply cease to function when the Messianic armada arrives. Nothing will be able to withstand the onslaught, just as it was with the waters of the Flood.

Those who resist will simply die. Their flesh will fall off their bones. They will simply melt, but not in any type of nuclear blast, but rather the life-force energy that enables life will simply be removed from them. Their molecular structure will not longer have any integrity and they will simply melt and disappear. No mess, no clean-up; it will all be rather neat and quick.

This will not happen all over the world but specifically only in one place, in Jerusalem. Although all will not be there; all will see it as it happens. The global media will record and report it all, blow by blow. The world will be in panic, with absolutely nothing to be done other than to submit and to change.

As history marches forward and the nations of the world continue to prepare for war, targeting above all others the little State of Israel, Heaven is watching and it is Heaven that is moving the minds of leaders to take the actions that they will. They are all being aroused to come to Jerusalem to meet their destinies.

All upheavals, be they military, political, economic or natural, such as earthquakes, are all brought about through the Hands of Higher Influence. THEY are watching us, and it is THEY who are in control. THEY answer only to THE ONE and when the times balance between the dimensions THE ONE will send Mashiah and THEY will come with him, finally coming out of the shadows of a parallel world and into the light of this world.

This cannot be avoided, this can no longer be delayed. The merger between worlds has sped up; the two dimensions are growing ever closer, they are on a collision course. When the two meet, like at the Big Bang and Sinai, a new world will be born. There is a timetable. The date is set. It will no longer be delayed or postponed. The time is coming and it is almost here now.

We are presently being prepared and individually guided. But in order to see what is coming, we desperately need to open our eyes. The spiritual inner eye is the only one that can see this; it resides in the heart, not the mind.

The mind blocks what the spiritual eye can see; therefore one must silence one's mouth from speech and silence one's mind from questions. Only then, in the silence will one be able to see that which has not yet materialized, but surely will materialize soon.

Be silent, be open, and most of all be ready. And remember, HaShem is with you always. Whether or not you see Him; He sees you. What is it that you want Him to see?

Let Him lead you and to Still Waters will He take you. Trust, let go, live by faith; only this is the right way, the **RIGHTeous** way.
